DATA STRUCTURES AND ALGORITHMS

UNIT 4 PROJECT REPORT

Folder Backup Application Using Binary Tree and Stack

Project	Folder Backup Application Using Binary Tree and Stack
Programming Language	C++
Data Structure	Binary Tree and Stack
Traversal Technique	Non-Recursive Preorder Traversal
Student	Sejal Nitin Nitankar
Roll Number	224

A C++ programming assignment demonstrating binary tree operations and non-recursive preorder traversal using a stack in a practical folder backup management scenario.
