**UNIT 5 PROJECT REPORT**

# Water Distribution Network Using Adjacency List and BFS

| | |
|---|---|
| **Project** | Water Distribution Network Using Adjacency List and BFS |
| **Programming Language** | C++ |
| **Data Structure** | Graph (Adjacency List), Linked List and Queue |
| **Algorithm** | Breadth-First Search (BFS) |
| **Student** | Sejal Nitin Nitankar |
| **Roll Number** | 224 |

A C++ programming project demonstrating graph representation using an adjacency list and BFS traversal to identify distribution points reachable from the main water tank.
